Bituminous Concrete Paving Improvements

The City of Ansonia is requesting bids from qualified contractors to complete road paving improvements of eight roads located in the town of Ansonia. The selected contractor will be under contract with and be paid by the Town of Ansonia. All bids shall be submitted using the proposal forms included in this bid package. All work shall be conducted in accordance with technical specifications in this bid package and prevailing industry standards.

Contractors are responsible for visual inspection of the roads to be paved. Contractors are responsible for understanding site conditions and constraints prior to bidding. Contractors are responsible for measuring all of the distances to be paved prior to bidding.

Listed below are the four roads for paving improvements that will be completed, along with the methods of improvements required for each road.

Asphalt Material HMA.50.375 to be supplied by City of Ansonia.

1. MENNA ROAD. Finnunican Road to cul-de-sac.

Mill existing roadway 1 ½ in. deep and replace with 2in. ware course.

2. Hershey Drive. North Division to cul-de-sac.

Mill existing roadway 1 ½ in. deep and replace with 2in. ware course.

3. Westfield Ave. Wesley to circle.

Mill existing roadway 1 ½ in. deep and replace with 2in. ware course.

4. Grove Street.

Mill existing roadway 1 ½ in. deep and replace with 2in. ware course.

5. Holbrook Street.

Mill existing roadway 1 ½ in. deep and replace with 2in. ware course.

NOTES:

1. The specifications for the roads listed above do not include curbing.
2. Millings are to be removed from each job site by the contractor.
3. Asphalt design mixes shall conform to HMA.50.375. Asphalt Mixes, Connecticut Standard Specifications for Roads and Bridges.
4. Street sweep area of all dirt and debris.
5. Apply tack coat on all roads.

6. Repair any driveway aprons damaged during paving operations.
7. Reconstruct driveway aprons to match new pavement elevations, where necessary.
8. All man hole risers to be supplied & installed by City of Ansonia Public Works.
9. All utility risers' boxes to be supplied by City of Ansonia.

**MAINTENANCE AND PROTECTION
OF
TRAFFIC**

- 3) Review Maintenance and Protection of Traffic of the Special Provisions, including "Work Zone Safety Procedures"
- 4) Review Contractor's schedule and method of operations
- 5) Review areas of special concern: ramps, turning roadways, medians, lane drops, etc.
- 6) Open discussion of work zone questions and issues
- 7) Discussion of review and approval process for changes in contract requirements as they relate to work zone areas.

LANE CLOSURE RESTRICTIONS

It is anticipated that work on adjacent projects may be ongoing simultaneously with this project. The Contractor shall be aware of those projects so that coordination is maintained for proper traffic flow at all times on all project roadways and this coordination is acceptable to the Engineer.

The Contractor will not be allowed to close a lane if a Contractor working on an adjacent project has the opposite lane closed unless there is at least a one mile clear area length where the entire roadway is open to traffic, measured from the end of the first work area to the beginning of the signing pattern for the next work area.

CONTRACTOR'S USE OF TOWN PROPERTY AREAS

If permission is granted to the Contractor to utilize Town property as a storage area for either construction equipment or materials, the Contractor shall conform to the following:

1. After hours and weekend parking of construction equipment will not be allowed in landscaped areas which will cause damage to said areas. Also, equipment shall not be parked in locations within the Town Area which will cause sight line restrictions for motorists entering or exiting the Town Area.
2. The Contractor will not be allowed to stockpile any material other than that material which is permitted in an Agreement that is required between the Town and the Contractor. The storage of unacceptable material such as construction debris, hazardous material, old truck batteries, abandoned construction vehicles, etc. will not be allowed.
2. The Contractor shall restore those areas of the Service Area.

MAINTENANCE AND PROTECTION OF TRAFFIC

The Contractor shall maintain and protect traffic as follows:

City of Ansonia to supply Traffic Control & Flag Men.

Excepted therefrom will be those periods, during the allowable periods, when the Contractor is actively working, at which time the Contractor will be allowed to maintain and protect one lane of through traffic in each direction, each lane on a paved travel path not less than 11 feet in width,

The Contractor shall maintain and protect one lane through traffic in each direction, each lane on a paved travel path not less than 11 feet in width.

RESIDENTIAL DRIVEWAYS

The Contractor shall maintain access to and egress from all residential driveways throughout the project limits. If a temporary closure of a residential driveway is necessary, the Contractor shall coordinate with the owner to be determine the time period of the closure.

SIGNING

The Contractor shall maintain all existing side-mounted signs throughout the project limits

During the duration of the project. The Contractor shall temporarily relocate signs and sign supports as many times as deemed necessary and install temporary sign supports and foundations if necessary and as directed by the Engineer.

When the necessary construction is completed, the Contractor shall re-install the existing signs in their original locations or as directed by the Engineer.

Alternate No. 1: Provide pricing per linear foot to install bituminous concrete curbing.

Linear Price _____

Alternate No.2: Additional roads for City of Ansonia must hold pricing per sq. yd.

For milling.

Additional roads for City of Ansonia must hold pricing for sq. ft. for paving.

No additional charge.
